Fisheries College

The Fisheries College in Tamil Nadu started in the year 1977 in Thoothukudi under TNAU.

University

TNJFU was established in 2012 as the 2nd State Fisheries University of India at Nagapattinam.

ABOUT TNJFU

TNJFU
Tamil Nadu Dr. J. Jayalalithaa
Fisheries University

TNJFU, one of its kind in the country, is a young and dynamic university that saw its genesis a decade ago and roots to a humble beginning in 1977 as a Fisheries College in Thoothukudi, the country's second such institution. The journey that began then, spanning over 47 years of excellence in the domain of fisheries education, research, and extension, has made the university stand as an exemplary institution today with a number of constituent units that are still growing. Our strong presence in 12 districts of Tamil Nadu makes us a vibrant and fervent educational institution committed to exploring possibilities to bring about a transformation in the higher educational landscape.

The Indian fisheries sector has been witnessing tremendous growth in recent years, making its role in the Indian economy indispensable. While ensuring the nation's food and nutritional security, the fisheries sector is also preserving and improving the lives of millions of fishermen and fish farmers. The new developments and interventions in the aquaculture and seafood industries have made India a global leader in the fisheries sector. India's "Blue Revolution" mission to harness the full potential of the fisheries sector is netting huge success by increasing fisheries production, both inland and marine, from aquaculture and fisheries resources through sustainable practices.

TNJFU offers the right place for budding next-generation innovators and scientists in the discipline of fisheries science. Our academic programmes are designed to cater to the needs of the sector by developing professionals who are industry-ready to address the contemporary challenges prevailing in the fisheries sector. We are focused on fostering seafood and aquaculture-based entrepreneurship by training students in the future thrust areas with the best infrastructure and technology. We are dedicated to building expertise at the field level and nurturing the young minds who are tomorrow's changemakers. We believe in turning science into societal benefits by empowering the fish farmers, fishing communities, women, and youth of Tamil Nadu through capacity building, skill development, and livelihood improvement programmes.

Welcome to the realm of knowledge that transforms lives!

Dr. N. FELIX
Vice-Chancellor

VISION

"Harnessing the Science of Fisheries for Food, Nutrition and Livelihood"

Excelling in teaching, research, and extension initiatives in fisheries sciences to produce professionally acclaimed and socially responsible graduates achieving nutritional security and sustainable development of the fisheries sector.

MISSION

OBJECTIVES

To impart quality education in different branches of Fisheries Sciences as the University may determine.

To conduct organised research in the frontier area to develop cutting-edge technologies in Fisheries Science.

To provide extension services like training, consultancy, project formulation to fish farmers, fisherfolk, unemployed youth and entrepreneurs in Fisheries Sciences.

To facilitate comprehensive development of Fisheries Sciences for increased contribution to the state's economy and set benchmark standards through appropriate interventions in fisheries teaching, research and extension.

STUDENT ACHIEVEMENTS

India Fisheries Outlook 2 (IFO 2)

Dr. U. Ari Sekar – Honoured with both the Dr. I. Karunasagar Best Ph.D. Thesis Award (2022) and the Dr. M. S. Swaminathan Best Fisheries Scientist Award (2024)

Ms. Emiema – Awarded the Dr. N. R. Menon Best M.F.Sc. Thesis Award (2024)

Dr. S. Sundhar – Recipient of the Dr. I. Karunasagar Best Ph.D. Thesis Award (2024) and Dr. J. K. Jena Gold Medal by IFSI

Ms. Prabali Marpade – Conferred the Dr. N. R. Menon Best M.F.Sc. Thesis Award (2022)

PFGF Best Fisheries Graduate of India

Ms. Elavarasi – Secured the top rank and received the Dr. K. C. Naik Award

Mr. A. Ebiron – Achieved third rank and was honoured with the Dr. E. G. Silas Award

THRUST RESEARCH AREAS

Aquaculture

- Breeding & seed production of pacu, seabass, murel, anabas, loach & mud crab and feed development
- Development of improved strain tilapia and pure line tilapia brooders
- Exclusive therapeutic products – phytobiotics, antiviral compounds and biofilm vaccine development for *vannamei* against bacterial & viral diseases; and therapeutic potential of marine polychaetes
- AI based research – portable sensors, hydroacoustic tech. for biomass estimation & drone based automated feeding system
- Development of water probiotics
- Ornamental fish diseases research

Fish Processing

- Development of bioplastic and active food packing materials
- Value addition of invasive Charru mussel (bio-fertilisers & mineral mix)
- Investigation on heavy metal bioaccumulation & health risks associated with seafood consumption
- Circular economy approach – collagen peptides from processing waste & artificial bioreef from shell waste
- DNA barcoding, molecular identification for authenticity
- Seaweed based products like protein hydrolysate etc.
- Traceability in the supply chain

Fishing Technology

- Design & development of troller for-high valued pelagic fishes
- Development of eco-friendly artificial baits using surimi incorporated with marine & plant derived bioattractants
- Development of serial collapsible & non-collapsible crab traps
- Design and development of Fish traps for the capture of reef fishes
- Development of semi-automatic longline system for motorized fishing crafts
- Design & development of artificial conch shell shaped pots for the capture of Octopus along the coast of Palk Bay

Aquatic Environment Management

- Artificial Coral Reef/Live Rock (ACR/LR) and Fish Aggregating Artificial Reef (FAAR)
- Enriched bacterial consortium evaluation for the treatment aquaculture wastewater
- Typha & Eichornia based biochar filter media for removal of lead from contaminated water
- Assessment of trophic transfer & bio-magnification of heavy metal contaminants in Pulicat Lagoon & other water bodies
- Economic evaluation of Ecosystem services
- Carbon footprint studies in shrimp farming

Fisheries Resource Management

- Assessment of reproductive biology and population characteristics of marine fishery groups at coastal regions of TN for declaring fishing ban season
- Eco-modelling of Ennore estuarine complex
- Development of an e-module for marine conservation

Fisheries Extension

- Digital extension services, Value chain analysis, and fishermen livelihood oriented research

RELEASED TECHNOLOGIES (2025)

18

TECHNOLOGIES

S. No.	TITLE OF THE TECHNOLOGY
1.	Seed production technology for Striped Murrel (<i>Channa striatus</i>) under captive condition
2.	Standardisation of protocol for mass culture of novel marine biflagellate <i>Proteomonas sulcata</i> isolated from Gulf of Mannar coastal waters for mariculture operations
3.	Fish curry in Retort Pouch (South Indian & Srilankan) (<i>commercialised</i>)
4.	Seaweed incorporated edible coffee cups
5.	Seaweed incorporated edible icecream cones
6.	Seeweed extract (<i>Sargassum wightii</i>) incorporated chocolate
7.	Seaweed (<i>Hypnea pannosa</i>) incorporated face cream
8.	Seaweed (<i>Hypnea pannosa</i>) incorporated soap
9.	Seaweed (<i>Hypnea pannosa</i>) incorporated body wash

S. No.	TITLE OF THE TECHNOLOGY
10.	Seaweed (<i>Hypnea pannosa</i>) incorporated Shampoo
11.	Seaweed (<i>Hypnea pannosa</i>) incorporated handwash
12.	Green Spicy Shrimp Snack (<i>commercialised</i>)
13.	Mixed Spice Shrimp Snack (<i>commercialised</i>)
14.	Classic Salt and chilly shrimp snack (<i>commercialised</i>)
15.	Cheese and Spice Flavoured shrimp snack (<i>commercialised</i>)
16.	Tandoori Barbecued Shrimp Snack (<i>commercialised</i>)
17.	TNJFU – Murrel feed
18.	TNJFU- Asian Seabass feed

COMMERCIALISED TECHNOLOGY (2025)

On 12th February 2025, the Hon'ble Minister for Fisheries and Fishermen Welfare and Animal Husbandry launched **CMR Vannamei Shrimp Feed**, a new formulation developed using **TNJFU's Shrimp Feed Formulation Technology** to optimise shrimp growth and productivity at the **Feed Mill** in **Directorate of Incubation and Vocational Training in Aquaculture (DIVA)**, Muttukadu

PATENTS GRANTED

2024-2025

S. No.	DESIGN PATENTS
1.	Grader for shrimp nursery
2.	Piezoelectric tiles
3.	Piezoelectric shoe
4.	Pocket Size Colorimeter
5.	Apparatus for fast recovery of solvent by HPLC

PATENTS PUBLISHED

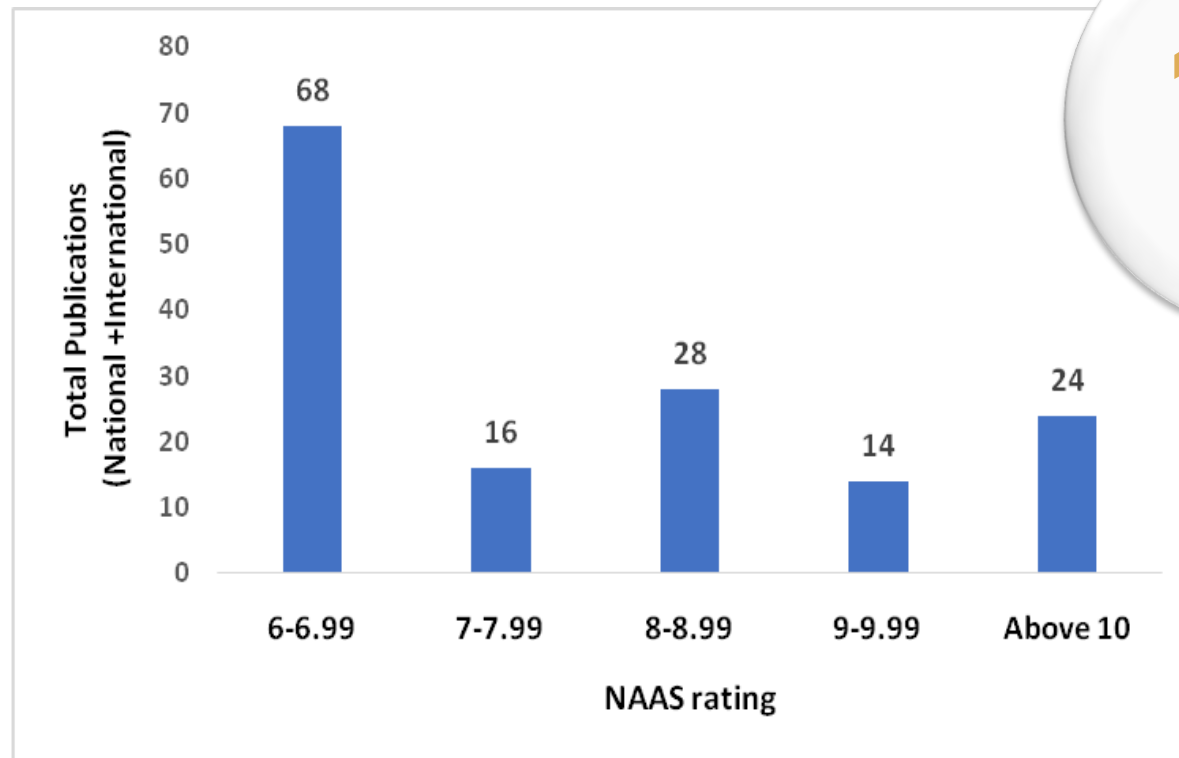

2024-2025

S. No.	PUBLISHED PATENT
1.	Device for separating plastic and debris from flowing water in natural water bodies

TCeSA

MCeSA

KKGCSA

KKPCeSA

KBCeSA

EBCeSA

Trichy CeSA

Theni CeSA

- **TCeSA:** Focus on the development of innovative aquaculture technologies for the inland farming sector and dissemination of advanced farming technology to the farmers and entrepreneurs
- **MCeSA:** Focus on standardisation of breeding and seed production techniques for commercially important marine food fish and ornamental finfishes
- **KKGCSA:** Focus on the establishment of a shrimp brood bank in Kanyakumari district and the development of SPF Broodstock for the Indian Penaeid species
- **KKPCeSA:** Undertake research programmes in aquaculture to uplift the socio-economic status of farmers and fishing communities in Kanyakumari District and disseminate the latest technologies in inland fish farming and marine fisheries to the stakeholders
- **KBCeSA:** Work exclusively on new tilapia strain development, breeding techniques, seed production, all-male seed production with low-cost technologies and low-cost feed for tilapia
- **EBCeSA:** Focus on enhancing the seed production of commercially important freshwater fishes especially Jayanthi rohu and promoting the culture of fast growing carp, Jayanthi Rohu among farmers of the district
- **Trichy CeSA:** Focus on standardisation of the culture technology for the mass-scale production of economically important freshwater ornamental fishes
- **Theni CeSA:** Focus on the standardisation of Indian Spiny Loach farming technology and the promotion of loach farming in the state

LIVELIHOOD EMPOWERMENT PROGRAMMES

1

FISHERMEN BOAT DRIVER LICENSE TRAINING

FC&RI, Thoothukudi & DIVEF, Ramanathapuram

On completion, the trainees are eligible to apply for a boat driver license to navigate fishing vessels of OAL<24 m fitted with less than 240 HP engines by Department of Fisheries and Fishermen Welfare of Tamil Nadu.

Demonstration of engine repair in the marine engine workshop

One week training on 'Care and maintenance of fishing boat engines of mechanized boat and safety of fishermen at sea' covering 3 districts such as Kanyakumari, Thoothukudi and Ramanathapuram

- Funding agency: **TNSDC**
- Total Trainees: **300**
- Total Trainings: **16**
(2022-25)

Demonstration of Navigational Simulator by a Ship Captain

OUTCOMES

SUCCESS STORY OF BOAT DRIVER LICENSE TRAINING PROGRAMME – YEAR WISE

BOAT DRIVER LICENSE OBTAINED BY FISHERMEN – YEAR WISE

ENGINE MAINTENANCE

Fishermen who participated in the training sessions on **first aid, firefighting, and engine maintenance** have begun **actively adhering to the standard operating procedures** associated with these critical areas.

This progress is confirmed by **post-training evaluations**.

Voluntary registration of 1000 FISHERMEN on the **TNSKILL portal** strongly reflects their growing interest in enhancing their competencies in navigational skills, first aid, firefighting equipment usage, and engine maintenance. It also demonstrates their commitment to becoming certified and licensed professionals in the field.

SUCCESS STORY

201

FISHERMEN OBTAINED BOAT DRIVER LICENSE

Issuing of Boat Driver license to the trainees

LIVELIHOOD EMPOWERMENT PROGRAMMES

2

GILL NET DESIGNING, ASSEMBLING & MENDING TRAINING PROGRAM FOR FISHERWOMEN

FC&RI, Thoothukudi & DIVE, Ramanathapuram

One week training on 'Livelihood upgradation of fisherwomen of Tamil Nadu through on Gill net designing, assembling and Net mending' covering 2 districts such as Thoothukudi and Ramanathapuram

- Funding agency: **TNSDC**
- Total Trainees: **90**
- Total Trainings: **3** (2023)

Practical class on 'Shaping of webbing by braiding'

Final stage of model gill net

90 FISHERWOMEN WERE TRAINED IN GILL NET DESIGNING & MENDING

SUCCESS STORY

11

Gill net assembling

Issuing of Rs.6,00,000 cheque by the Bank to a Fisherwomen trainee

- Fisherwomen started a business of their own on “Gillnet making and Net mending” availing a bank loan through the **District Industrial Centre (DIC)** with the government subsidy of **35%**
- Investment: **Rs.4.5 lakhs**
- Revenue Generated: **Rs.5.0 lakhs**
- Employment opportunity: Each entrepreneur engages **5 fisherwomen**
- Net Profit: **Rs.20,000 per gear** (after deducting expenses such as bank loan repayments and employee wages)

LIVELIHOOD EMPOWERMENT PROGRAMMES

3

EMPOWERMENT OF ARTISANAL FISHERFOLK OF PAZHAVERKADU THROUGH CRAB CULTURE TECHNOLOGY

PRFF, Pulicat (Thiruvallur)

Scientific method of crab farming technology was disseminated, Inputs like crablets, feed, etc. was supplied for crab culture, Marketing linkage was provided to Pulicat fisherfolk

Distribution of soft crabs to fisherfolk for stocking in ponds

Distribution of water crabs and crab boxes for crab fattening

- **Technology transfer and training:** Tailored training programme suitable for specific target with local technical content
- **Sustainable practices:** Established demonstration farms for providing technical guidance
- **Socio economic considerations:** Market access, Income generation, Community engagement (fisherfolk are involved in planning their type of activity, needs and concerns), Gender equality (Ensured participation of women and marginalized groups to have access for resource and training), Food security & Employment creation
- **Funding agency:** PMMSY
- **Total Trainees:** 500 (2025)

MAJOR EVENTS (2024-25)

IIS 2024

Industry Institute Summit –
Fostering Relationships & Forging
Connections

FAPTN'24

Consultative workshop on Fisheries
and Aquaculture Production in Tamil
Nadu: Status and Way Forward

Technology Release'25

TNJFU-Technology Release programme for
18 technologies & launch of CMR
Vannamei Shrimp Feed

MAJOR EVENTS (2024-25)

IFSISC'25

1st Indian Fisheries Students Innovation & Startup Conference (IFSISC 2025) on "Reimagining Indian Fisheries @ 2047"

Alumni Meet 2025

TNJFU Alumni Meet to reconnect, reminisce and engage in stimulating discussions with professionals and experts

NABL Gunvatta Yatra

NABL in collaboration with TNJFU hosted Gunvatta Yatra on NABL Accreditation and its Benefits

MAJOR EVENTS (2024-25)

PONSHRIMP'24

National Workshop "PONSHRIMP' 24" on "Striking a balance between the export market & domestic consumption of Shrimp"

Pearl Aqua 2024

National Workshop "Pearl Aqua 2024" on "Health Management in Shrimp Aquaculture – Current Trends & Perspectives"

MAJOR EVENTS (2024-25)

KISAN MELA

The Entrepreneurs developed by KVK & TNJFU exhibited their products in the university campus. Ornamental fish, Indian major carps, Pacu, chicks and goat were distributed to the economically weaker section of the district & certificates were issued to the value-added product producers who participated in the exhibition

The Kisan Mela was conducted on 18.06.2025 at Tamil Nadu Dr. J. Jayalalithaa Fisheries University, Nagapattinam to mark the **14th Foundation Day** of the University.

CHIEF MINISTER INAUGURATION (2023-24)

Inauguration of Hostel Facilities (Boys & Girls) worth **Rs. 14.60 Crore** at CoFE, Nagapattinam

29.09.2023

Inauguration of Hostel Block & Additional infrastructure facility (Admin Block 2nd floor) worth **Rs. 11.65 Crore** at FC&RI, Thoothukudi and Dr. MGR FC&RI, Thalainayeru

04.01.2024

CHIEF MINISTER INAUGURATION (2024)

Inauguration of Hostel Block (Dr. MGR FC&RI, Ponneri) and Loach Breeding Centre (Theni CeSA) worth **Rs. 6.94 Crore**

08.03.2024

Inauguration of Farmers Training Hostel worth **Rs. 12.82 Crore** at TNJFU (HQ), Nagapattinam

20.08.2024
