From the Desk of Vice-Chancellor.....

Dear Readers,

Another year has begun and it is time for new hope and expectations which keep our lives vibrant. Generally, we don't consider the dawn of a new year as just another day and simply stay home and take it easy. The enthusiasm we continue to carry with every new year and the promises and resolutions we make keep us going and growing for the better. I wish the year 2021 does bring us pleasant surprises and happiness all around.

TNJFU has seen a surge in activities during January 2021. The visit of honourable Union Minister of Fisheries, Shri Giriraj Singh to our Aquatic Rainbow Technology Park has to be seen as an opportunity to grow further attracting more support as he promised to extend such parks in other regions of the State to increase ornamental fish production and livelihood of fishers. The visit of Chief Executive of NFDB Dr. (Smt.) Suvarna Chandrapagari, IFS to the same facility did add colour to our Aquatic Rainbow Technology Park. The new year meeting of the University Officers had focussed discussion on matters concerning the progress of the University. I congratulate the Dean and team of Dr.MGR FCRI, Thalainayeru for having organized the annual event, 'Chola – Aqua 2021' on virtual mode bringing in experts to share their knowledge and expertise with over 100 registered participants. Besides, a start-up cell was also opened at the institute and MoU signed with two progressive farmers. The 72nd Republic Day was celebrated with fervour at all our Centres and on the occasion Best Researcher, Best Teacher and Best Extension Worker awards were given to Dr.A.Uma, Dr.N.Jayakumar and Dr.K.Chandrasekar respectively based on new guidelines issued for the selection from among the faculties of the University.

The EDII-MPBIF facility at FCRI, Thoothukudi has inducted quite a few incubatees and nurtures start-ups in fish processing enterprises. Four different institutes came forward to sign MoU with the MPBIF to promote entrepreneurship for their students. The real success of this incubator would be harnessed only when our young graduates make use of the facility and try establishing their start-ups and become successful entrepreneurs. DIVF has added another facility, CIVF at Thengapattinam fishing harbour to help promoting deep sea fisheries of the State.

Anything that starts well should progress well and so with the good beginning we shall work together making the year 2021 a truly memorable one for the TNJFU.

**Dr. G. Sugumar, Ph.D.,
Vice-Chancellor**

VC Events

The Hon'ble Union Minister for Fisheries visited ARTP :

Shri Giriraj Singh, Hon'ble Minister for Fisheries, Animal Husbandry & Dairying, Government of India visited the Aquatic Rainbow Technology Park (ARTP) at Madhavaram, Chennai along with Dr. Rajeev Ranjan, IAS, Secretary to Government, Department of Fisheries, Government of India on 21.01.2021.
